

I am

I'm trying to

But

Because

Which makes me feel

Retailer

to sell products to the customer

there are difficulties like updating the stock on time

notifications are not send on time

worried and to create a system which sends the notifications to update stock on time

I am

I'm trying to

But

Because

Which makes me feel

Retailer

refiil stocks on time

is difficult to keep it in mind

of large amount of stock

sad
